POST VASECTOMY SEMEN ANALYSIS INSTRUCTIONS:

1. Bring the first semen sample to the lab of your choice, 8 weeks after the surgery.
 - Remember a prescription must accompany the sample.
 - Be sure to label the container with your name and time of collection.
 - Arrive at the lab within one hour of collection.
2. The second semen sample must be submitted 12 weeks after the vasectomy.
3. Remember to use birth control until our office notifies you that the second semen sample showed completely zero for any sperms.
